

JACKOBOARD®

The construction board system for creative bathroom design.

Easy to work with

Can be covered immediately with tiles, render or plaster

Waterproof

Truly light-weight approx. 3-6 kg/m²

Optimum insulation properties $\lambda_D=0,034$ W/(m·K)

High compressive strength > 300 kPa

For rooms exposed to high levels of moisture (Wear class A1 and A2)

Thanks to their extruded polystyrene foam core and the special coating on both sides, the JACKOBOARD® construction boards are the ideal base for plaster, tile and render. The surfaces of the JACKOBOARD® system provide a strong primer and can be used on virtually any substrate. At the same time, they are waterproof, thermally insulating, truly light-weight and easy to install.

JACKOBOARD® Panel

- Panel for mounting taps, shower heads and piping to complete JACKOBOARD® Aqua Circle and Aqua Spiral
- With Pre-formed reinforcement plate and cut-out section at the back for pipes
- Curve radius $r = 500$ mm
- Special sizes available on request
- Can be covered directly with tiles

JACKOBOARD® Aqua Circle

Shower partition wall

- Shower partition wall consisting of 5 elements with tongue and groove connection
- Inside wall surface approx. 5.82 m²
- Outside wall surface approx. 6.39 m²
- Special dimensions possible on request
- Can be tiled immediately

Floor element

- Barrier-free shower element with Pre-formed falls
- Internal diameter 1000 mm
- External diameter 1100 mm
- Groove for insertion of partition elements
- Inside floor surface approx. 0.8 m²
- Choice of different drainage systems (see page 18)

Bespoke Colours +

We offer a wide range of colour variations for some of our popular grates. These are highlighted in the catalogue using the symbol above. Please enquire for more details.

Pictures shown are for illustration purposes only. Actual product colour may vary slightly from image shown.

✓ JACKOBOARD® Aqua shower element

Properties	Unit	Value
Compressive strength at 10% compression according to EN 826 (XPS core)	kPa	> 300
Tensile strength	kPa	> 200
Fall	-	integrated
Thickness	mm	20, 25, 40, 50
Minimum tile size	mm	25 x 25 x 4 ¹⁾
Wheelchair accessible from tile size	mm	50 x 50 x 6,5
Fire behaviour	-	Euroclass E
Thermal conductivity (λ_D) according to EN 13164 (XPS core)	W/(m·K)	0,034

¹⁾ For smaller tile sizes the joints must be grouted with epoxy resin grout.

✓ Horizontal drain (Art. no. 4512007)

Properties	Unit	Value
Drainage rate	l/s	0,9
Installation height	mm	77
Water trap height	mm	50 ²⁾
Grate load class	-	K3
Pipe connection	-	DN 50
Grate size	mm	120 x 120 x 4
Grate frame size	mm	130 x 130 x 9
Tile thickness incl. plaster	mm	3-38

²⁾ Installation height incl. shower element up to 97 mm

✓ Vertical drain (Art. no. 4512008)

Properties	Unit	Value
Drainage rate	l/s	0,9
Installation height	mm	115 ³⁾
Water trap height	mm	50
Grate load class	-	K3
Pipe connection	-	DN 40 and DN 50
Grate size	mm	120 x 120 x 4
Grate frame size	mm	130 x 130 x 9
Tile thickness incl. plaster	mm	3-38

³⁾ Floor drain underside (without drain nozzle)

We would like to point out that the data, images, technical information and drawings provided in the brochure are general details and only constitute suggestions. The illustrations are schematic and demonstrate the basic functional principle. Exact dimensions are not specified. The fabricator/customer is responsible for testing the applicability with regard to the respective construction project. All specifications and data must be adapted to local conditions and do not constitute construction, detail or installation documentation. The technical specifications and data for the products in the data sheets and system descriptions/approvals must be observed.
